- To ensure optimal revenue mobilisation and effective allocation of financial resources

II. Current Situation & Challenges

- The key economic indicators over the last five years are shown in the table below:

Key Economic Indicators	2016	2017	2018	2019	2020
Real GDP Growth (%)	3.8	3.8	3.8	3.0	-14.9
Investment Rate (GFCF as a % of GDP)	17.2	17.4	18.8	19.6	18.1

- Mauritius was able to contain the spread of the COVID-19 virus. However, the Mauritian economy was significantly impacted with a contraction of real GDP by 14.9 percent in 2020.
- The tourism sector was the most severely impacted. While other sectors also contracted, the financial services and ICT sectors registered a real growth of 1.0 percent and 3.9 percent respectively.
- A number of measures were taken to mitigate the negative impact of the pandemic on the economy. These include, amongst others, the Wage Assistance Scheme and the Self-Employed Assistance Scheme provided by Government to protect livelihoods as well as to support the business community.

Key Challenges

- To usher in a strong economic recovery from the negative impact of the pandemic and minimise disruptions in the labour market
- Uncertain business environment both locally and internationally with lockdowns and closure of borders affecting business activities
- Lower FDI inflows and domestic private investment as well as decline in exports of goods due to lower activity levels and fall in demand in main markets
- Bringing the public sector debt to GDP ratio on a downward path in the medium term

VOTE 7-1: Finance, Economic Planning and Development - *continued*

- The ageing and declining population likely to reduce the labour force and domestic market size while increasing the burden on Government finance for state support
- Preparation of the consolidated financial statements of some 215 public sector bodies as part of the accrual accounting reform
